Approved For Release 2002/05/06 : CIA-RDP57-00384R000700070096-5

January 18th, 1949

Services Branch
Central Intelligence Agency
Washington 25, D. C.

Re: [REDACTED]

STATINTL

STATINTL

Attention: [REDACTED]
Assistant Chief

Gentlemen:

We have your registered letter of December 30th, together with formal release for execution of the above order.

STATINTL

At a meeting of the Board of Directors of [REDACTED] it was voted to forego the execution of the release of this order. Inasmuch as equipment not ordinarily stocked was secured for this order, and delivery was actually made to point of installation on October 6th, 1948 and preparations were made for installation, it was voted to settle Order #49-1049 as follows:

STATINTL

6	#2412H Rauland Units	@ \$131.00	786.00
6	#JB112 Junction Boxes	@ 4.00	24.00
				<u>\$810.00</u>

We will waive the additional charges on the order for material and labor involved in the installation of the system. We will again deliver the units which can be stocked by Central Intelligence Agency for future installation.

We regret the fact that installation of this system could not be made as originally planned, and trust that the settlement as proposed above can be made.

STATINTL

JLG:eb
